Vino707.com

NorCal's 1st Spanglish Site!

About Us

The Goal of Vino707 is to utilize the internet and obtain local information and organizing it in an easy to navigate web portal.

We have chosen to create the web portal in the hybrid language of “Spanglish” because it can be understood by both English and Spanish speakers alike.

Spanglish is a Spanish-English Hybrid with a few rules and many variations, but at its most vivid and exuberant.

Phrases and sentences veer back and forth almost unconsciously, as the speaker’s intuition grabs the best expressions from either language to sum up a thought.

Spanglish is not meant to diminish either language, it is an Integration of several cultures. One would think only two cultures; Mexican and American.

But indeed just as English is spoken by many cultures so is Spanish.

Spanglish would not only fit right at home in North America, and South America but also in Europe were both languages are spoken.

This publication has been created to give Vino Country a central location to showcase our piece of Heaven, the Northern California Wine Country

Grey area is standard 8.5x11 paper. Orange area is actual size of banner represented on 8.5x11 paper. All banner dimensions are in Pixels. All rates are per month with customer supplied art work. If paid for full year subscription then you get a free month

In this difficult economy, advertisement becomes even more important to generate business. However, when business is slow the first thing that suffers is the advertisement budget. More businesses are turning barter friendly for goods or services that they need but can't fit into their budget. Vino707 is barter friendly helping businesses place advertisements on our web portal therefore generating business in our local community. Bartering is an exchange of service for service, no money exchanged.
